

Expro Excellence

Expro delivers SeaCure[®] cementing to eliminate clean out run

Well Construction | Cementing Technologies

Objectives and background

- Our customer was looking for a cost efficiency and operational performance drive to eliminate a 26" clean out run of a 30"

Expro Excellence

- Low risk high value subsea cementing solution to deliver optimized cement job and slimhole drill out

Value to the client

- Drilled 30" shoe out with 12 1/4" BHA in 35 minutes with 10-20klbs
- Delivered on the project within budget and on time
- Bit drilled to TD with no ROP restrictions and pulled 1-1
- No BHA failures in next section
- Ran 9 5/8" surface casing through 30" shoe with no issues

SeaCure[®] saved eight hours of rig time for us."

Elizabeth Witte,
Chevron Wells Team Leader

Reduction of rig time
