

Expro Excellence SeaCureRS & CureCatcher® deliver quality primary cement job with optimized liner shoetrack

Well Construction | Cementing Technologies

Objectives and background

- Our client was looking to achieve a quality 7" liner cement job with minimal contamination and an optimized liner shoetrack

Expro Excellence

- Expro's SeaCureRS cementing, combined with CureCatcher® solution delivered the Ultimate Cement Placement

Value to the client

- Quality primary cement job
- Multiple mechanical interfaces caught in catcher sleeve in collar to minimize contamination
- Optimized shoetrack solution
- No clean out trips required
- Post cement job full wellbore circulation with work string already at TD
- 6" BHA drilled to section TD for 8 days at high temperature

“Shoetrack drilled out with zero issues.”
