

Expro Excellence

SeaCure[®] zero shoetrack solution enables safe and reliable undergauge drill ahead

Well Construction | Cementing Technologies

Objectives and background

- Earlier under-gauge drill out of 20" surface casing can cause stuck BHA or even requiring a 17-1/2" clean out trip

Expro Excellence

- Clinical execution SeaCure[®] Cementing eliminates SSR plugs and shoetrack enabling slim drill ahead

Value to the client

- Saved SSR plugs, shoetrack, cement head and clean-out bit/ BHA costs
- Shoe drilled out under gauge in 15 minutes
- Reduced cement job displacement volume by >30m³
- Saved more than ten hours of rig time
- Saved more than 65MT in CO₂ emissions
- Delivered zero NPT service execution

“
Saved roughly
ten hours of rig
time. Job very
well done!”

Einar Bergseth
Senior Drilling Engineer

Reduction of rig time

Innovative solution
