## Fluids Sampling and Analysis

### Luxfer Gas M3719 - Aluminium Gas Bottle

Suitable for use in any ambient condition to be expected outdoor, subject to the specified temperature limitations, including offshore platforms, onshore terminals and sites in tropical areas.

Schmoele valves with 1/4" NPT Thread, female ports.  
Transportation box available.

Specifications	
Model	Luxfer M3719
GA drawing	3BA-03
Net volume	20,000 cc (20 L)
Filling pressure	200 bar g @ 65°C 170 bar g @ 100°C
Working temperature	-10 to 100°C
Material	(Cylinder) Aluminium alloy 6061 T6 (Valves) 316 SS
Net weight	26kg
Dimensions	(OD x L) ø 229 x 1050
Code	BS 5045
Service	Oxygen Argon Nitrogen Helium CO H <sub>2</sub> S Hydrogen Methane Mixtures of above components
Standard	Hydrostatic pressure test certificate
Option	Product certificate by LLOYDS
